## YEA Newsletter: Summit Edition

November 2006

**Dear Brian,**

Starting a new business requires much more than just a good idea. A new business requires a good plan, a solid product that meets the needs of current customers at a profitable price point. Successful businesses also require excellent timing, solid leadership and a good amount of luck. Entrepreneurs who are able to find a helpful mentor and leverage the experience of others are far more likely to succeed. The Young Entrepreneur Summit is a great time for students and teachers to come and learn from the best.

### Mentors & Networking

Our annual Summit is a great place to find a mentor and network with like-minded

entrepreneurs. Last year over 400 high school students attended the event to discuss their business ideas and to learn more about what it takes to be a successful entrepreneur. Building relationships with some of today's most successful entrepreneurs and developing a strong supporting network allows participants to be more successful when they finally take the leap to start their own businesses. Join us for a day and jump start a career. Click on the following link to see pictures from last year's big event.
